

WAC 246-808-505 “Classification of Chiropractic Procedures and Instrumentation”

(2) The commission shall maintain a classified list of chiropractic procedures and instrumentation. This list shall be made available upon request.

The following have been **approved** by the Chiropractic Quality Assurance Commission:

Activator Adjusting Instrument & Technique
Anatometer
Applied Kinesiology (AK)
Aqua-dry Hydrotherapy Tables
AquaMed Dry Hydrotherapy System
Arthrostim Adjustor
ASBE
Atlas Orthogonal - Sweat Adjusting Instrument & Technique
Autonomic Syndromes
B200 - ISO Technologies
BackMan Power Massage Table
Bagnell Technique - Approved for musculoskeletal application; *Not approved* for express purpose of breech presentation.
Barge
BEST Technique
Bio/Analogics – ElectroLiopGraph
BioFlex Low Intensity Light Therapy (LILT) System
Biotonix.com – Tonix System
Blair Analysis and Adjusting Technique
Body Composition Analysis
Bone Density Scan –Dexa Scan
Chiropractic Biophysics
Chiropractic Network
CMT 1000 TM
Cold Lasers and Low Intensity Lights
Cox Technique
Deep Muscle Goadng
Dexa Scan – Bone Density Scan
Diversified Technique
DNFT - Van Rump
Dynatron 2000
Electrode Paraspinal Electromyography (EMG) - Surface
Erchonia Therapeutic Lasers
FET 5000
Futrex 5000 and 5000A Body Fat Analyzers
G5
Gonstead Technique

Graston Technique

Grostick

Harrison – Integrated Drop Table Technique

Impulse Adjusting Instrument

Integrated Drop Table Technique – Harrison

Intersegmental Traction

ISO Technologies – B200

Jennetics procedure and Instrument

Leander Technique

LLIDO Back System

Logan Basic Technique

Magnetic Resonance Imaging (MRI) – Chiropractors may own and operate an MRI unit consistent with all applicable state and federal laws and regulations.

Manipulation Under Anesthesia (MUA) – must meet the following conditions:

- Anesthesia must be administered by appropriately licensed professional.
- Procedure must take place in an approved facility.
- Chiropractor must be certified to perform MUA through a program that is sponsored by a college or university that offers a Doctor of Chiropractic program accredited by the Council of Chiropractic Education (CCE).

Massage

Med-X Unit

Metrocom

MSM 5000

MSM 7000

Myofascial Release

MyoVision 3G System

Near Metabolic Reintegration (NMR)

Network Spinal Analysis

Neuroemotional Technique (NET)

Nimmo Technique

Noromed MES 9000

NUCCA

Osteo-Tech 1

Pettibon Adjusting Instrument & Technique

Pettibon Tendon, Ligament and Muscle Stimulator (PTLMS)

Photonic Stimulator

Pierce Technique - Stillwagon

Posture Pro Full-Spine Posture Pump

Posture Scale Analyzer

Pro Adjuster

PulStarFras ©

Referral for and interpretation of all diagnostic imaging methods:

- MRI
- Radionuclide Studies
- Diagnostic Ultrasound

Referral for and interpretation of laboratory tests including, but not necessarily limited to:

- Urinalysis
- Blood/Serum Analysis (this does not include venipuncture performed by a chiropractor)
- Sputum Analysis
- Throat Culture

SOT

Skin Temperature Differential Instruments

Spinalaider Instrument

Spinolator

Spray & Stretch Chiropractic Technique using Non-Absorbent, Topical, Vapo-Coolant

Static Traction

Stillwagon -Pierce Technique

Stress Machine

Surface Electrode Paraspinal Electromyography (EMG)

Sweat Adjusting Instrument & Technique - Atlas Orthogonal

Talsky Tonal Chiropractic

Tapping Instrument

The Thumper

Thermal Imaging Processor

Thermography

Thompson Technique

TMJ Treatment

Toggle

Toftness Adjusting Technique

Tonix System – Biotonix.com

Torque Release Technique and Instrument

Total Body Modification

Tracker

Trigger Point Therapy

Urinalysis

Van Rump –DNFT

Video Fluoroscopy

Vivatek

Webster Technique - Approved for musculoskeletal application; *not approved* for express purpose of breech presentation.

X-Ray Digitizing

- Devices shown to have reliable reproducibility are acceptable for range of motion.
- Individual traction devices do not need Commission approval.
- General rehabilitative exercise procedures are accepted by the commission. However, devices that have combined diagnostic/analytical/rehabilitative components must be pre-approved.

Research or Investigational – No billing is allowed for procedures or instruments used under this classification.

BioPhotonic Scanner

Diagnostic Ultrasound Scanner

Diagnostic Ultrasound or Sonography

Magnets

Oxygen Concentrator

Spinography

Non-approved or experimental – Any procedure or instrument that does not meet with commission approval

Bio-Energetic Stress Test – Galvanic Stimulation Computerized Device

Biomeridian – MSA21-BTAS-200SG

Breast Exams

Chiropractic Stressology ©

Electrotherapy: including diathermy, galvanic current, sinusoidal current, faradic current, TENS units.

Infrasonic QGM Therapeutic Massager

Iridology

Hypnosis (Hypnotherapy).

Nasal Specific Technique (Insertion of Inflatable Devices Into the Nasal Cavities).

The Testing and Reduction to Mathematical Formulae of Sputum and/or Urine (Commonly Known as "Reams" Testing).

Toftness Detection Device, Resonator, or other like devices

Ultrasound and/or X-Ray Radiation for Therapeutic (Non-Diagnostic) Purposes.
